

APPLICATION FOR INDUSTRIAL ASSOCIATE MEMBERSHIP

A centre of Excellence on “**Industrial Textiles and Home Textiles**” has been established at PSG College of Technology by the Departments of Textile Technology and Automobile Engineering of PSG College of Technology. The centre sponsored by the Ministry of Textiles under Technology Mission on Technical Textiles (TMTT) and PSG management has been set up on a sprawling campus in Neelambur, Coimbatore.

The main objective of this COE is to build an infrastructure specifically for Industrial Textiles and Home Textiles, which supports high quality research and industrial collaboration. It will provide a platform for industry and for the new entrepreneurs to develop products, standards development, upgrade their existing products and utilize pilot scale facilities for rapid sample / prototype development and manpower training.

Facilities Available at the Centre:

The following facilities are available at the centre.

- State of art testing and evaluation of Industrial / home textile products.
- Information Resource centre with IT infrastructure.
- Facilities for indigenous development of prototypes.
- Training of man power on machines for production of industrial textile products.
- Detailed project reports (DPR) for new entrepreneurs.
- To organize workshops, seminars and conferences to impart / transfer the knowledge to the industry.
- To incubate new entrepreneurs in the industrial textiles sector by providing support in project planning, execution, production and various
