

PSGTECHS COE INDUTECH AVAILABLE BOOK LIST

S.No	Book Title
1	Applications of Nonwovens in Technical Textiles
2	Handbook of Nonwovens
3	Smart Textile coatings and laminates
4	Fibrous and composite materials for Civil Engineering Applications
5	Handbook of Nonwoven Filter media
6	Technical Textiles Yarn
7	Coating Technology Handbook 3 rd Edition
8	Nonwoven fabrics raw materials,Manufacture,Applications,Characteristics,Testing process
9	Textile Progress - Advanced Technical Textiles for wound care
10	Absorbent Technology (Textile Science and Technology Vol.13)
11	Coatings of Polymers and Plastics
12	Textile Progress - Advanced Technical Textile Products
13	Industrial applications of Natural Fibres
14	Handbook of Technical Textiles
15	Composite forming technologies
16	Handbook of Natural type,properties,Factors affecting breeding and Cultivation
17	Handbook of Natural fibres processing and Applications Vol.2
18	Automotive Textiles processing
19	Handbook of Fibre science and Technology , Vol 3 High Technology Fibres part D
20	Advances in Knitting Technology
21	Handbook of sustainable textile production
22	High Performance Fibres
23	Eco Textiles - The way forward for sustainable development in textiles
24	Specialist yarn and fabric structures development and Applications
25	Computer technology for textiles and apparel
26	Functional textiles for improved performance, protection and health
27	wet laid and short fibre airlaid Nonwovens
28	Narrow fabrics group conference
29	Fashion Retail
30	Advances in yarn spinning technology
31	Textile design principle ,advances and applications
32	Technical Textiles Yarns - industrial and medical applications
33	Medical and health care textiles
34	Fatigue Failure of textile fibres
35	Micro-structural Characterization of fibre reinforced composites
36	Advances in textile Biotechnology
37	Filtration Technology handbook
38	Needle punch nonwoven primer
39	Spun bonded and Melt blown technology Handbook

PSGTECHS COE INDUTECH AVAILABLE BOOK LIST

40	The Nonwoven fabrics Handbook
41	Airlaid pulp nonwoven Primer
42	Harmonized Test methods Nonwoven and related Industries (CD)
43	India Nonwovens Outlook (CD)
44	A practical guide to reactive power management in Industry
45	India Nonwovens Outlook (Printout)
46	Woven Textile Structure theory and applications
47	Hand Book of Textile Fibre Structure Vol - I
48	Theory of Structure and Mechanics of Fibrous Assemblies
49	Coated Textiles Principles and Applications
50	Improving Comfort in Clothing
51	Hand Book of Textile Fibre Structure Vol - II Natural, Regenerated, Inorganic and specialist fibres.
52	SISPA Members Directory
53	Fibers to finished fabrics
54	Handbook of fiber chemistry
55	Load bearing fiber composites
56	Biomechanical engineering of textiles and clothing
57	Analytical electrochemistry in textiles
58	Environmental aspects of textile dyeing
59	Testing and Quality Management
60	1981-Annual book of ASTM standards
61	Progress in textiles : Science and Technology High Technology fibres vol3 part c
62	Textile Robotics & Automation
63	Advances in Fire retardant materials
64	High Technology fibers -Part C
65	Reactive Dyes for textile fibers
66	Barrier fabrics for protection against Aerosols
67	Electrostatic charging of textiles
68	Production and application of PP Textiles
69	Progress in textiles : Science and Technology High Technology fibres vol3 part D
70	Biodegradable & Sustainable fibers
71	Encyclopedia of Textile finishing (A-F)
72	Encyclopedia of Textile finishing (G-Q)
73	Encyclopedia of Textile finishing (R-Z)
74	Handbook of fiber science &Technology- Vol III – Part B
75	Knitting Technology Handbook
76	3D-Fibrous assemblies
77	Handbook of Textile and Industrial dyeing vol-1 principal and process
78	Engineering Textiles
79	Design and manufacture of textile composites

PSGTECHS COE INDUTECH AVAILABLE BOOK LIST

80	Properties and Performance of Natural fiber composites
81	Handbook of Textile and Industrial dyeing – Application of dyes
82	Structure and Mechanics of woven fabrics
83	Synthetic fibers: Nylon, Polyester, Acrylic , Polyolefin
84	Engineering apparel fabrics and garments
85	Handbook of tensile properties of textile and technical fibers
86	Fabric testing
87	Chemical testing of textiles
88	New product development in textiles
89	3D-Textile requirements in composite materials
90	Modern textile characterization methods
91	Impact behavior of fiber reinforced composite materials and structures
92	Polyesters and Polyamides
93	Woven textiles –Principles, developments and applications
94	Identification of textile fibers
95	False twist textured yarns-Principle , process and applications
96	Atlas of fiber fracture and damages to textiles
97	Handbook of Advanced material testing
98	Flow induced alignment in composite materials
99	Hand book of material - 4 th edition
100	Plasma technologies for textiles
101	Handbook on “Geo synthesis case studies of ITTA members “
102	Advances in the dyeing & Finishing to Technical Textiles
103	Handbook of fire resistant textiles
104	Handbook of footwear design & Manufacture
105	Joining Textiles : principles and applications
106	Mechanism of flat weaving Technology
107	Smart textile for protection
108	Functional Nano fibres & their applications
109	Textile polymers & composite for building
110	Nano fibres & nano technology in textiles
111	Textiles for protection
112	Kettenwirk Praxis
113	Design of clothing manufacturing process : A systematic approach to planning, Scheduling and control
114	Ergonomics in the garment Industry
115	Textiles in Automotive Engineering
116	Textile advances in the automotive industry
